**Bunch Tulip**  
**"Antoinette"**

**Bag of 16 bulbs**

This late season tulip is a bunch flowering variety that produces **multiple blooms** on one stem. Sword like foliage on a 16-18 inch stem supports the most recognizable flower imported from Holland. Just plant this fall in well drained soil in full sun to partial shade for great color this spring. Plant 5 inches deep and 9 bulbs per square foot. Be sure to water well after planting. plant 5" deep, 9 bulbs to 1 sq ft.

**Triteleia**  
**"Twilight"**

**Bag of 24 bulbs**

Grass like foliage and upright 18-20 inch stems support a cluster of **native purple star-like** flowers. Triteleia, or Star Flowers are easy to grow in well drained soil in full sun to partial shade. Plant 5 inches deep and 16 bulbs per square foot. Be sure to water well after planting. Plant in groups for best results. Star Flowers will form clumps and come back year after year if left undisturbed.. Early summer bloomer. Wonderful in woodland plantings.

### Hyacinth Giant Mixture

**Hyacinth Orientalis**

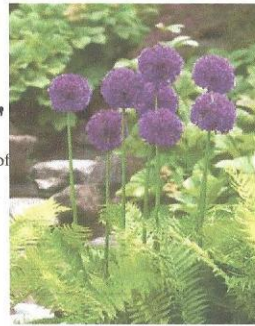

**Bag of 10 bulbs**

This Giant Hyacinth mixture is just gorgeous. We offer a beautiful blend of pastel colors and the intoxicating fragrance these mid-spring flowers are so famous for. Hyacinths are hardy, deer resistant, very fragrant, and like other bulbs; easy to grow in well drained soil in full sun to part shade. Plant 6 inches deep and 6 bulbs per square foot. Be sure to water well after planting.

**Allium**  
**"Purple**  
**Sensation"**

**Bag of 16**

Allium Purple Sensation produces a softballsize round cluster of brilliant purple flowers that measures 4-6 inches in diameter. Alliums are deer, rabbit, and squirrel resistant and extremely easy to grow in well drained soil in full sun to partial shade. Plant 5 inches deep and 9 bulbs per square foot. Be sure to water well after planting.

**Galanthus Woronowii**

**"Snowdrops" Bag of 20 bulbs**

Mounds of green foliage support arching dainty chalice shaped flowers. Snowdrops are easy to grow in well drained soil in full sun or partial shade. These bulbs are extremely hardy, and will even bloom during a snowstorm. Plant 5 inches deep and 16 bulbs per square foot. Be sure to water well after planting. They are the **first spring flowering bulbs to bloom** in the spring garden, and will often grow through a covering of snow. They can show up weeks before Crocuses do. Snowdrops **DO NOT** like fertilizer and if left undisturbed will naturalize very well, which means they come back year after year and will last a lifetime.
