WHAT ARE CLOVERBUDS?

Cloverbuds are children who explore areas of healthy living, earth environment, citizenship, plants and animals, consumer skills, science and technology, personality development, and expressive arts.

The primary goal of the Cloverbud program is to promote children's healthy development-mentally, physically, socially, and emotionally.

The Cloverbud program provides an excellent opportunity for your child to reach his or her highest potential because early life experiences, even subtle ones, affect future development.

The Cloverbud program is developmentally age appropriate, therefore it is:

- ✿ Fun
- ✿ Leader Directed
- ✿ Activity Based
- ✿ Non-competitive
- ✿ Success Oriented
- ✿ Group-Centered learning
- ✿ Many types of activities
- ✿ Positive

The Cloverbud program allows for and encourages creativity and play.

The Goals of Ohio's Cloverbud Program are for children to develop:

- 1) Self-understanding skills (self-esteem)
- 2) Social interaction skills (getting along with others)
- 3) Decision making skills
- 4) Learning skills (learning how to learn)
- 5) Mastering physical skills

Children possessing these life skills are less likely to have problems with drug use, school failure, delinquency, and depression later in life.

Yes, Yes, Yes!!!

I would like to know more about:

- My child joining a 4-H Cloverbud program.
- Becoming a 4-H Cloverbud program advisor or volunteer
- Any special events or programs happening this year with the 4-H Cloverbud program.
